

# Brain Based Learning

- Learn Brain research and implications for your classroom
- Specifics about Gregorc's Mind Styles & McCarthy's 4MAT - know yourself, know your students
- Create a rich environment and emotionally safe climate
- Construct meaning with intense, active involvement of the learners
- Teach life skills from novice level to expert level
- Foster appreciation and transfer with metacognitive reflection

Each of us has characteristics from each of the four mind styles, and we tend to use our preferred style most of the time

We perceive **ABSTRACTLY** or **CONCRETELY**  
We organize **RANDOMLY** or **SEQUENTIALLY**

Learn to use this knowledge to **IMPROVE** Student Achievement
