He has a Masters Degree in Education with K-12 Reading Certification.

...has worked as a staff developer and curriculum consultant for 10 years. His roots, however, stem from the classroom, where he taught social studies for 18 years.

...works extensively with Missouri's Department of Elementary and Secondary Education as a trainer, item writer, item reviewer and consultant.

...is a software trainer in the banking industry. His extensive training experience with Excel, PowerPoint and Access improves efficiency and productivity while reducing frustration.

...is married , with three grown daughters, two grandchildren and a zest for roses, travel, golf, sunny-beaches.

Show-Me-Solutions will help your district or school start the year on a positive note with:

... teambuilding that will get your staff pulling together, after having come to know and understand the ways that each person processes information.

OR

...understanding how to integrate technology and curriculum; of learning how to use the internet for student learning without fear.

OR

...dedicated to administrators learning the key elements of conducting an effective meeting; without wasted time or complaints.

OR

...goal setting for individuals and staff with goals that will improve student achievement.

OR

...learning more about assessment and how to prepare sample assessment items that parallel your state assessment and your curriculum AND THEN share the information with the rest of your staff using technology.

Technology and Training Solutions.

Instruction

Strategies with a foundation of mentoring, modeling and coaching.

Cooperative Learning: Learn the keys, principles and strategies of the most researched and effective strategy in education.

Differentiating Instruction thru Multiple Intelligences:

Verbal-linguistic or logical-mathematical, bodily-kinesthetic or naturalist, visual-spatial or musical-rhythmic, interpersonal or intrapersonal? Naturally plan instruction that gives **EACH STUDENT** the opportunity to “shine”.

Brain Based Learning: Abstract or concrete, random or sequential? How people process information is one of the major components of learning.

New Teacher Training: Learn how to have positive expectations, excellent classroom management, and lesson mastery. Learn more, according to Harry Wong’s book, “The First Days of School”.

Customized Staff Development

Show-Me-Solutions specializes in tailoring workshops to support your school staff development program. We focus on local and/or state curriculum goals and targeted subject areas.

Professional On-site Workshops

Interactive, hands-on, collaborative workshops conducted in your school, each led by a Show-Me-Solutions Staff Development Specialist.

Classroom Modeling

A Staff Development Specialist (certified teacher) models effective orientation and research activities by leading a real class of students. For added convenience, these sessions can be held during your regularly scheduled faculty meetings.

Technology

Integrate Microsoft Office Applications, the Internet and Curriculum.

The Internet: making it safe, timely, and instructional.

Facilitate Technology Plans: Enlist parental support, build consensus, then formulate the plan.

Evaluation Services

Show-Me-Solutions will custom design, develop, and implement a technology evaluation for your school. Services include initial needs assessment, monitoring implementation milestones, data collection, analysis, summation reports and future recommendations.

Leadership Strategies that will encourage and increase the use of Technology Resources in your Organization.

Network and Hardware Consultative Services: before you build it, plan it; therefore saving time, money and heartache.
