

Differentiating Instruction Through Multiple Intelligences

- Prepare students for tomorrow's complex, interdependent world.
- Make curriculum accessible to all students.
- Make content engaging and exciting for all learners.
- Recognize the intelligences in yourself and in your students.
- Teach students to recognize and value their own unique pattern of intelligences.
- Foster among students and staff an appreciation, respect and caring for others.
- Help students master the content using their own natural strengths.
- Develop the various facets of intelligence in each student.
- Create a more caring, enthusiastic class climate.

- Learn the 8 Intelligences and how to deliver instruction that will allow each student to MATCH their best modes, STRETCH to develop all modes and CELEBRATE their similarities and differences.
